

About Me

Passionate software engineer interested in the field from as early as 13 years old. Experienced in working with engineers who have a collective goal of releasing high quality software. I seek to surround myself with people who like to teach and to learn from each other. I also am a;

• Classical Pianist • Swimmer • Video Editor • Game Designer • Hackathon Enthusiast • World's Fastest Smartphone Typer (2019)

Work Experience

Talos Full-Time, London, UK • since Sept. 2023 // Full-Time, New York, US • until July 2023

Senior Front-End Engineer • Jan. 2024 // Software Engineer II • Jan. 2022 // Software Engineer • June 2020

June 2020 - Present

React.js, TypeScript, CSS

- Contributed to the growth of Talos from a 10-member team to over 130 employees, actively involved in all aspects of product development.
- Developed high-performance web components using React.js and TypeScript, implemented end-to-end testing with Jest and Cypress, and automated deployment pipelines with GitHub Actions, ensuring efficient and reliable software delivery.
- Created detailed monitoring panels for Talos's institutional partners, enabling effective order lifecycle management; regularly performed performance analysis and contributed to architecture calls to ensure optimal system performance.
- Organized an in-house AI hackathon with 78% company attendance, partnering with Google to pilot and evaluate their unreleased AI tools, leading to significant advancements in our AI initiatives.
- Contributed to the hiring of front-end interns by creating interview questions, evaluating candidates, and ensuring we onboard top talent.
- Fostered team engagement and company culture by hosting weekly company game nights.

JumboCode Part-Time, Massachussets, US

Front-End Engineer

Jan. 2020 - May 2020

React.js, Node.js, Firebase, Heroku

- Implemented interactive features by translating UX wireframes and mockups using React.js, HTML/CSS, and JavaScript, enhancing user experience.
- Standardized components with a mobile-friendly approach, ensuring compatibility and optimal performance across various devices.

Insider Internship, Istanbul, Turkey

Mobile Development Intern

June 2019 - Aug. 2019

React Native, React.js, Redux, Python

- Improved the reliability of the Insider iOS and Android SDK by implementing new geolocation and push notification algorithms.
- Developed and documented "iGurme", an e-commerce app which integrates all the features of Insider's enterprise level SDK. iGurme is currently used during sales and pitch meetings to promote Insider's new SDK features for both iOS and Android devices in over a dozen countries.

Education

Tufts University, Massachussets, US

Bachelor of Science in Computer Science

May 2020

GPA: 3.59/4.0

On Campus Employment, Teaching Assistant

- Computation Theory: Course on the models of computation - Turing machines, pushdown automata, and finite automata.
- Computer System Security: Network-based computer security course. (Python, JavaScript, Linux)
- Game Design: Ground-up game design and development course. (Unity, C#, Photoshop, Maya)
- Web Programming: Full-stack web development course. (HTML, CSS, JavaScript, Node.js, MongoDB)

Spring 2020
Fall 2019
Fall 2018
Spring 2018

University of Hong Kong, Hong Kong. Tufts University study abroad program with focus on music and history.

Spring 2019

Skills

Libraries and Frameworks: React.js • React Native • Node.js • Express • Firebase • Cypress • RxJS • Styled-Components • Redux

Languages and Tools: TypeScript • JavaScript • HTML • CSS • Python • C++ • C • Heroku • MongoDB • Xcode • Git • VSCode

Design Software: Illustrator • Photoshop • Figma • After Effects • Final Cut Pro • PyxelEdit

Personal Projects

Most of my projects are open-sourced, I'm also always working on more. • [Github://ralfisalhon](https://github.com/ralfisalhon)

Talos Badges | Digital badge collection and showcase for Talos employees - Web app

TuneWise | Music centered mobile party game - Web app

Jamblr | Music discovery and playlist creation platform - iOS app

Coverlove | Cover art maker for Spotify playlists - iOS app

Red or Blue | Strategy puzzle platformer game with controller support - Mac/Windows
